

Peace in your Communal Space

We want to hear from all of you, not just the people who normally answer. Everybody. Be honest, don't blow away this chance to really have your say. Don't waste it. We will give these to your teachers. You can make a difference in your environment. This does not need your name.

Name times when you feel ease and interest in the classroom

Times when you feel ill at ease or bored

What would you like to see happen (be realistic) that would make the classroom a more harmonious environment

For
you

the class as a
whole

It seems the students want to talk and the teachers need silence in order to communicate information to them. How can this problem be worked out for everyone's benefit?

What should be done when students get rebellious and are disturbing the class- or just don't want to be there?

What can be done for students to get along with each other better as a group? -

What do you want to communicate to your teacher(s) that you have not been able to say?
